

Welcome to MIND MEMOS™

TAKE CHARGE OF YOUR BRAIN HEALTH

Menopause affects every woman differently, but one of the most significant effects of menopause involves cognitive difficulties, also known as “brain fog.”

Brain fog is characterized by a decline in working memory, processing speed, and the ability to maintain focus.

At the onset of menopause, there is an abrupt loss in the ovarian hormones estrogen and progesterone.

Estrogen plays a major role in the protection of the hippocampus - a region of the brain responsible for learning and memory.

Menopause Brain Fog *...is cognitive decline*

OUR MISSION

To empower women to live confidently through their transformative health journey.

At CleopatraRX™ we are committed to menopausal wellness - because your Mind Matters™.

Experience cognitive clarity with CleopatraRX™

CLEOPATRAX™

ABOUT PEARLPAK® TREATMENT

CleopatraRX™ was founded as a result of an invention by a world-renowned neuroscientist, Rhonda R. Voskuhl, M.D.

PearlPAK®

is a **patented treatment** to improve cognition and slow brain atrophy during menopause.

PearlPAK® supports the body with a **tailored dose** of estriol and progesterone.

Estriol **reduces brain degeneration** that can occur during menopause.

Timing is Key MIND THE GAP

THE PEARLPAK® ADVANTAGE

The PearlPAK® treatment system works by providing the body with a **natural solution** - an exclusive blend of estriol and progesterone - designed to alleviate cognitive difficulties during menopause.

Clinically tested and validated

Slows cognitive decline

Improves working memory

Reduces regional brain atrophy

It's Easy and Convenient

No shots and no creams, PearlPAK® is a twice daily dosage in easy-to-swallow pill format.

Delivered directly to your front door for ease and convenience.

MEET DR. VOSKUHL

A Professor of Neurology at the University of California, Los Angeles (UCLA).

Dr. Voskuhl considers cognitive issues and the aging population as the greatest challenge of our generation.

She is the neurologist for the UCLA Comprehensive Menopause Care Program, with over two decades of experience in finding solutions for neurodegenerative diseases.

Her extensive research, clinical studies, and perseverance in brain health led to the development of PearlPAK®.

“I am on a mission to empower women to take control of their menopause journey, and to feel confident having conversations with other like-minded women who choose to take control of their health.”
